

DuraVision™ Convex Mirror Product Sheet:

E-Series Stainless Steel Food Mirror

This is a more lightweight mirror for use in less harsh industrial or production areas where a convex mirror can improve the existing monitoring and safety systems.

Features

- Premium quality acrylic mirror face
- ASA Vinyl back
- Galvanized steel bracket and fixings
- Orange vinyl extrusion for visibility in the factory setting
- Unique J-Bracket for easy installation and adjustment

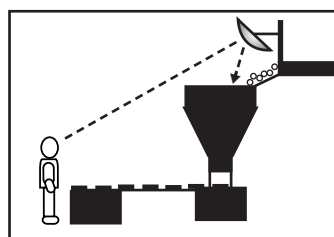

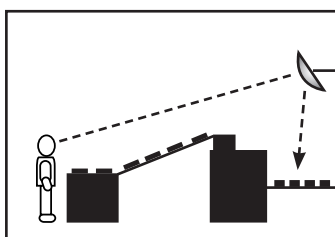

Suitable Uses

- Production equipment safety
- Monitoring processes and machinery
- Minimal cleaning regimes
- Prevent production line blockages and jams
